

Reports

Path: *Reports button*

The Reports button gives you easy access to several reports relevant to the teacher's Classes, Home Rooms, or Teams. The button is context sensitive to the option chosen at the very top of the Start Screen. More reports are being developed, so watch this page. Some of the present reports are discussed here.

Class Hot Print Reports

Using this form, you can print several reports relevant to the initial option of **Classes, Home Rooms** or **Teams**. These buttons print reports for the student selected on the front screen.

The **Class Record**, for example, is a list of students by class. This blank list facilitates many types of manual class record keeping such as the manual tracking of marks or attendance. The other reports are equally useful and informative. Take a look at the others.

Student Hot Print (TA)

Pupil No. 420877 Name Balul, Mario
