

Student Demographics

You have quick access to a litany of information that can help effectively manage a student's progress in your class and school.

You can access demographic information, performance information on all classes in which the student is enrolled and attendance summary information.

When using these functions, look for filter options that will reclassify the displayed information and facilitate varying perspectives on the data.

Basic Demographics

Frequently used and critical information is drawn from numerous screens in eSIS. The information is reorganized and consolidated for quick access through one window with seven tabs or canvases. All canvases are read only except the **Observations** canvas.

A screenshot of the 'Student Demographics (TA)' form. The form is titled 'Student Demographics (TA)' and has a yellow 'Alert' button in the top right corner. It features a navigation menu at the top with 'Basic Demographics', 'Academic Progress', and 'Student Absences'. The main form area is divided into several sections: 'Demographics', 'Parents / Emergency Contacts', 'Medical', 'Schedules', 'Observations', 'Teams', and 'Programs'. The 'Demographics' section is currently active and contains the following information: Pupil Number: 110278, Legal Last Name: Eombadii, Suffix: , Legal First Name: Mayra, Gender: F, Birth Date: 20-MAR-1989, Grade: 9, Middle Name: Andrea. Schedules

This canvas displays current year information about the student including: the **Homerrooms** to which the student is attached, the **Special Ed. Requirements** that have been identified for the student with the associated interventions / teachers and the student's course schedule.

The display of **Special Ed. Requirements** is a function of the Company File, which is controlled at the District level. Note also, that we can view the student's **Courses** planned for next year by selecting the **Next Year** radio button.

Observations

Teacher observations about performance or behavior can be entered here. Click in the date field to begin. Defaults to current date but can be changed. Any Observation entered can be designated as an **Alert**, a **Follow up** or neither, but not both.

Some items of note include:

- Check the **Shared Access** box to make your observations available to other teachers otherwise they remain private. This keeps Alerts active for you and other Teachers until the teacher who entered the observation enters a Completion Date.
- Check the **Alerts** or **Follow up** box to cause the Observation to populate the Alerts/Follow ups window.
- Use the **Activation** and **Completion Dates** to give the **Alerts** and/or **Follow-ups** a 'shelf-life'.
- If there are **Alerts** or **Follow ups** you are notified on entering Teacher Assistant and you will be reminded every 30 minutes with a pop up until you have dealt with the items as read.
- The print button calls the Observation Report parameter form and defaults to print the report for the selected student.
